For Immediate Release

Sumitomo Forestry Co., Ltd.

Revisions to Organizational Structure and Personnel Transfers

Sumitomo Forestry Co., Ltd. hereby announces that the Board of Directors met on September 30, 2013 and passed the following resolutions for revisions to the organizational structure of Sumitomo Forestry Co., Ltd. to take effect on October 1, 2013.

■ Organizational revisions (from October 1)

1. Reorganization of the Housing Division

1) Newly establish Interior Products Department

i. Sumitomo Forestry Co., Ltd. will newly establish Interior Products Department by spinning off the interior products from Technology Department. The company's objective is to actively tackle the expansion of this business domain.

ii. Interior Products Department will actively carry out the planning the interior design of products and services provided by group companies, including spec home, MOCCA (wood use integration), and renovations. In addition to improving earnings, the objective is to boost added value for products by promoting offerings that focus on total coordination.

2) Newly establish Tohoku Construction Control Center

i. Sumitomo Forestry Co., Ltd. will newly establish Tohoku Construction Control Center to boost the construction system in the Tohoku area; to strengthen involvement in large-scale housing projects, including public housing in devastated areas; and provide support for restoration of quake/tsunami stricken areas, including the construction of wooden houses.

ii. The area to be covered by Tohoku Construction Control Center are the Sendai, Morioka, Yamagata, and Fukushima branch offices, and it will handle the development and bolstering of the production system in this area.
